

John Bergdall

Last updated: February 20, 2026

Department of Mathematical Sciences
University of Arkansas
Fayetteville, AR 72701

Email: bergdall@uark.edu
Web: <https://bergdalljf.github.io>
Office: SCEN 353

Employment

2025-	The University of Arkansas , Associate Professor
2022-25	The University of Arkansas , Assistant Professor
2018-22	Bryn Mawr College , Assistant Professor
2017-18	Michigan State University , Visiting Assistant Professor
2014-17	Boston University , NSF Postdoctoral Research Fellow
2013-14	Boston University , Postdoctoral Faculty Fellow

Education

2008-13	Brandeis University , Ph.D. Advisor: Joël Bellaïche
2003-08	University of Minnesota , B.S.

Other academic positions

2021-22	Max-Planck-Institut für Mathematik Visiting researcher (1 year)
2017	Max-Planck-Institut für Mathematik Visiting researcher (3 months) Institut des Hautes Études Scientifiques Visiting researcher (2 months)

National grants and fellowships

2024	National Science Foundation (DMS-2401152) “Conference: Modular forms, L -functions, and eigenvarieties”
2023-	National Science Foundation (DMS-2302284) “Collaborative Proposal: Slopes of modular forms and moduli stacks of Galois representations”
2020-25	Simons Foundation Travel Support for Mathematicians (MPS-TSM-00713782) “Eigenvarieties, automorphic forms, and Galois representations”
2014-17	National Sci. Foundation Math. Sci. Postdoctoral Res. Fellowship (DMS-1402005) “Aspects of the Langlands program via p -adic families of automorphic forms”

University awards and fellowships

2023-24	University of Arkansas Robert C. and Sandra Connor Endowed Faculty Fellowship
2022-23	University of Arkansas New Faculty Commendation for Teaching Commitment

16. [New phenomena arising from \$\mathcal{L}\$ -invariant of modular forms](#) (with Robert Pollack)
To appear in *Algebra and Number Theory*.
15. [A \$p\$ -adic adjoint \$L\$ -function and the ramification locus of Hilbert modular eigenvarieties](#) (with Baskar Balasubramanyam and Matteo Longo)
Tunisian J. Math. 7, 2025, no. 3-4, p. 515-588. DOI:[10.2140/tunis.2025.7.515](#)
14. [Huber rings and valuation spectra](#) in *Non-Archimedean Geometry and Eigenvarieties EMS Münster Lectures in Mathematics* 4, 2024, p. 1-53. DOI:[10.4171/mlm/4](#)
13. [On \$p\$ -adic \$L\$ -functions for Hilbert modular forms](#) (with David Hansen)
Mem. of the Amer. Math. Soc. 298, 2024, no. 1489, pp. iv+126. DOI:[10.1090/memo/1489](#)
12. [Reductions of 2-dimensional semi-stable representations with large \$\mathcal{L}\$ -invariant](#) (with Brandon Levin and Tong Liu)
J. Inst. Math. Jussieu 22, 2023, no. 6, p. 2619-2644. DOI:[10.1017/S1474748022000081](#)
11. [Slopes of modular forms and reducible Galois representations, an oversight in the ghost conjecture](#) (with Robert Pollack)
Proc. Amer. Math. Soc. Ser. B 9, 2022, p. 432-444. DOI:[10.1090/bproc/136](#)
10. [Reductions of some two-dimensional crystalline representations via Kisin modules](#) (with Brandon Levin)
Int. Math. Res. Not., 2022, no. 4, p. 3170-3197. DOI:[10.1093/imrn/rnaa240](#)
9. [Smoothness of definite unitary eigenvarieties at critical points](#)
J. reine angew. Math. (Crelle's J.) 759, 2020, p. 29-60. DOI:[10.1515/crelle-2017-0048](#)
8. [Upper bounds for constant slope \$p\$ -adic families of modular forms](#)
Selecta Math. 25, 2019, no. 4, Art. 59, pp. 24. DOI:[10.1007/s00029-019-0505-8](#)
7. [Slopes of modular forms and the ghost conjecture, II](#) (with Robert Pollack)
Trans. Amer. Math. Soc. 372, 2019, no. 1, p. 357-388. DOI:[10.1090/tran/7549](#)
6. [Slopes of modular forms and the ghost conjecture](#) (with Robert Pollack)
Int. Math. Res. Not. 2019, no. 4, p. 1125-1144. DOI:[10.1093/imrn/rnx141](#)
5. [An adjunction formula for the Emerton–Jacquet functor](#) (with Przemyslaw Chojecki)
Israel J. Math. 223, 2018, no. 1, p. 1-52. DOI:[10.1007/s11856-017-1611-y](#)
4. [A remark on non-integral \$p\$ -adic slopes for modular forms](#) (with Robert Pollack)
C. R. Math. Acad. Sci. Paris 355, 2017, no. 3, p. 260-262. DOI:[10.1016/j.crma.2017.01.012](#)
3. [Paraboline variation of \$p\$ -adic families of \$\(\varphi, \Gamma\)\$ -modules](#)
Compositio Math. 153, 2017, no. 1, p. 132-174. DOI:[10.1112/S0010437X16007831](#)
2. [Arithmetic properties of Fredholm series for \$p\$ -adic modular forms](#) (with Robert Pollack)
Proc. Lon. Math. Soc. 113, 2016, no. 3, p. 419–444. DOI:[10.1112/plms/pdw031](#)
1. [Ordinary modular forms and companion points on the eigencurve](#)
J. Number Theory 134, 2014, p. 226-239. DOI:[10.1016/j.jnt.2013.07.014](#)

Computational research code

- 2023- **Github repository:** [\$\mathcal{L}\$ -invariants of modular forms](#) (joint with Robert Pollack)
2021- **Github repository:** [Slopes of modular forms](#) (joint with Robert Pollack)
2017- **Website:** [Slopes of modular forms and Fredholm series](#) (joint with Robert Pollack)

Invited lecture series

- 2023 **Spring school on non-Archimedean geometry and eigenvarieties** (Heidelberg, DE)
Four graduate-level lectures on adic spaces
2022 **Graduate school on p -adic L -functions and eigenvarieties** (South Bend, IN)
Four graduate-level lectures on Galois representations and eigenvarieties

Conference and workshop presentations

- 2023 **TORA XII: Tex.–Okla. Representations and Automorphic Forms** (Norman, OK)
“ p -adic distributions of modular forms”
2022 **PCMI: Number theory informed by computation** (Park City, UT)
“ p -adic distributions of modular forms”
 p -adic L -functions and eigenvarieties (South Bend, IN)
“ p -adic distributions of modular forms”
2020 **AMS special session on automorphic forms and Galois representations** (Virtual)
“Reductions of local Galois representations for eigenforms with large $\mathcal{L}$ -invariants”
2019 **Moduli spaces and modularity** (Oaxaca, MX)
“Explicit $\mathfrak{S}$ -modules for crystalline representations”
AMS special session on special values of L -functions and arithmetic invariants in families (Hartford, CT)
“Constant slope families of p -adic modular forms”
33rd Automorphic Forms Workshop (Pittsburgh, PA)
“Constant slope families of p -adic modular forms”
2017 **AMS special session on p -aspects of arithmetic geometry** (Buffalo, NY)
“Upper bounds for constant slope p -adic families of modular forms”
 p -adic methods for Galois representations and modular forms (Barcelona, ES)
“Geometric properties of p -adic families of automorphic forms (and applications)”
2016 **AMS special session on p -adic analysis in number theory** (Minneapolis, MN)
“Some questions about slopes of modular forms”
Connecticut summer school in number theory (Storrs, CT)
“Geometric properties of p -adic families of automorphic forms and applications”
The p -adic Langlands program and related topics (Bloomington, IN)
“Slopes of modular forms and the ghost series”
2015 **Boston University/Keio University joint workshop in number theory** (Boston, MA)
“Slopes of modular forms and the ghost conjecture”
 p -adic methods in the theory of classical automorphic forms (Montréal, CA)
“Arithmetic properties of Fredholm series”

Conference and workshop presentations, cont.

-
- | | |
|------|---|
| 2014 | Fourth annual upstate New York number theory conference (Buffalo, NY)
“Ordinary representations on $U(3)$ and a conjecture of Breuil and Herzig” |
| 2013 | Modular forms, p-adic L-functions and Selmer groups (Oriahovitz, BG)
“Parabolizations over families of trianguline representations” |

Recent colloquia & seminar presentations ($\dagger$ indicates colloquium or other special presentation)

-
- | | | |
|------|--|---|
| 2025 | University of Chicago
Michigan St. University
Ohio State University
University of Arkansas | “On the distribution of modular points on deformation rings”
—
—
— |
| 2024 | Duke University
Oklahoma University
Oklahoma University $\dagger$ | “Slopes and $\mathcal{L}$ -invariants of modular forms”
—
“Some distributions arising in algebra and number theory” |
| 2023 | Rice University
University of Arkansas
University of Pittsburgh $\dagger$
University of Arkansas | “ p -adic slope distributions of modular forms”
—
—
“Huber rings and valuation theory” (3 lectures) |
| 2022 | Université de Lille
Univ. du Luxembourg
Max Planck Inst.
Universität Heidelberg
Indian Inst. Sci. (IISc)
Université Laval | “Recent investigations of $\mathcal{L}$ -invariants of modular forms.”

Conference and workshop organization

-
- | | |
|------|--|
| 2024 | Co-organizer: Modular forms, L-functions, and eigenvarieties (Paris, France) |
| 2015 | Co-organizer: Boston University/Keio University workshop 2015 (Boston, MA) |

Colloquia and seminars organized

-
- | | |
|---------|---|
| 2025– | Co-organizer: University of Arkansas algebra seminar |
| 2025 | Organizer: University of Arkansas Undergraduate Math Research Symposium |
| 2022– | Organizer: University of Arkansas graduate student learning seminars
<i>Topics:</i> Algebraic number theory, L -functions and modular forms |
| 2019–20 | Co-organizer: Bi-College math colloquium |
| 2019–20 | Co-organizer: Philadelphia area number theory seminar |
| 2013–17 | Co-organizer: Boston University number theory seminar |
| 2014–15 | Organizer: Boston University graduate student learning seminars
<i>Topics:</i> The local Langlands conjectures , p -adic Hodge theory |

Recent Teaching

- 2022- (UArk) **MATH 6190V**: Topics in algebra — elliptic curves
MATH 3-41103: Introduction to Abstract Algebra I, II
MATH 30803: Linear Algebra
MATH 32003: Number Theory
- 2018-20 (BMC) **MATH B102**: Calculus II
MATH B290: Elementary number theory
MATH B303-4: Algebra I, II
MATH B317: Topics in advanced mathematics: elliptic curves
MATH B398: Senior conference: mathematics and democracy
MATH B399: Senior conference: mathematical cryptography
MATH B503-4: Graduate algebra I, II

Degree bearing student advising and research

- 2024-26 **Luke Biddle** (AB, University of Arkansas Honors College '25)
Thesis: *TBD*
- 2020-21 **Sandy Chen** (AB, Bryn Mawr College '21)
Thesis: *The distribution of greatest common divisor of $\mathbf{Z}[\sqrt{2}]$*
- 2019-21 **Elsa Magness** (MA, Bryn Mawr College '21)
Thesis: *An Exposition of the Sato–Tate Conjecture for Elliptic Curves with Complex Multiplication*
- 2019-20 **Sophia Schein** (AB/MA, Bryn Mawr College '20)
Thesis: *Hecke operators on linear representations over finite fields*
- 2015-16 **Alexander Peraire-Bueno** (Boston University Academy thesis)
Thesis: *Counting with partitions*

Other student research, mentorship, and service

- 2025- **Ph.D. Thesis Committees (University of Arkansas)**
Total number of students: 1.
- 2024- **Honors College Thesis Committees (University of Arkansas)**
Total number of students: 7.
- 2019 **Summer Science Research (Bryn Mawr College)**
Students: Sandy Chen and Sophia Schein
PROMYS research project writer
Students: Eric Tang, Aryaman Srikant, Emily Huang, and Aidan Griffin
Title: *Representation theory and Dickson's theorem*
- 2016 **PROMYS research project mentor**
Students: David Amirault, Vanshika Jain, Roshan Padaki, and Sabir Shaik
Title: *Slopes of Newton polygons*

College and university service

- 2025 **Fulbright Program Campus Committee Member** (Univ. Ark.)
2023- **Curriculum committee** (Univ. Ark. Math.)
2023-25 **Ad-hoc graduate qualifying exam committee** (Univ. Ark. Math.)
2020 **Graduate Council** (Bryn Mawr Coll.)
 Director of Graduate Studies in Mathematics (Bryn Mawr Coll., Math.)
2019-20 **Committee on Undergraduate Awards and Fellowships** (Bryn Mawr Coll.)

Non-college and -university professional service

- 2024- **Peer review for grants and other proposals**
 National Science Foundation, Banff International Research Station
2016- **Peer review of publications**
 Journals: 15 total including Algebra and Number Theory, Duke Math. J. Invent. Math.
2023 **TORA XII Graduate Student Q & A session**
 Facilitated question and answer session for graduate student conference participants
2020 **Panel: Cross Atlantic representation theory and other topics online**
 Topic: "How individuals are dealing with the pandemic"
2019 **Panel: Philadelphia Undergraduate Mathematics Conference**
 Topic: Professional development
2016 **Panel: Boston College mathematics graduate student association**
 Topic: Professional development

Significant professional development

- 2024 **Inspiring Inquiry and Preparing Lifelong Learners** (Certificate provided by
 the Association of College and University Educators (ACUE))
2020 **Teaching and Learning Institute partnership**
 Partners: Sara Grossman, Kirtee Ramo, and Yeipyeng Kwa
 Online Teaching Institute (Bryn Mawr College)
2019 **Cornell Interactive Theater Ensemble workshop**
 Theme: "Hang in There and Be Tough"
 Posse Plus Retreat
 Theme: "The State of our Union"
2018-19 **Teaching and Learning Institute partnership**
 Partner: Jake Ogata Bernstein

Professional membership

- 2020-23 **Mathematical Association of America**
2008-24 **American Mathematical Society** (gap 2014-15)
